Work experience

- Software Integrator Since March 2024 (9 months)
London academy, Casablanca
 - Spearheaded the integration of the Classter School Information System (SIS) for a K12 British school with 350 students.
 - Configured and customized the platform to align with the school's specific administrative, academic, and operational needs.
 - Led the migration from a legacy system, improving data management, student record tracking, and communication processes.
 - Collaborated with school staff to ensure a smooth transition, providing training and technical support for ongoing operations.
 - Optimized various modules, including student ID card setup and attendance tracking, resulting in enhanced administrative efficiency.
- IT Developer From July 2023 to August 2023 (1 month)
Intelcia, Casablanca
 - Assisted in ensuring the functionality and high availability of a large-scale communication platform used by the call center's customer service teams.
 - Monitored system performance and promptly resolved technical issues to minimize downtime and optimize operational efficiency.
 - Collaborated with IT teams to implement enhancements, contributing to improved communication flow and response times.
 - Provided end-user support, including troubleshooting and technical guidance, to maintain smooth daily operations.
- Internship - IT Development From June 2021 to July 2021 (1 month)
Fruit of the Loom, Rabat
 - Investigated hardware product issues involving materials and software, proposing innovative solutions.
 - Consulted with network engineering staff to evaluate hardware and software requirements for new system development.
 - Assisted in troubleshooting technical issues related to the integration of new systems.

Education

- Software Engineering Degree From September 2021 to September 2024
Ecole Marocaine des Sciences de L'ingenieur, Casablanca, Morocco
- Specialized Technician in IT Development From September 2019 to August 2021
ISTA, Casablanca, Morocco
